

Biometrics, Visions and Computing (BVC-UNN-face) Face Dataset Agreement

(UNN Principal Investigator: Prof. Ogechukwu Iloanusi)

A database of Nigerian face images - BVC-UNN-face data, was collected by the Biometrics Vision and Computing (BVC) group at the University of Nigeria in 2018. We are making the BVC-UNN-face data available by license in the spirit of promoting the sharing of academic knowledge. The BVC group through the University of Nigeria retains ownership and copyright of the BVC-UNN-face dataset. The BVC-UNN-face data is distributed via the University of Notre Dame upon receipt of a properly executed copy of the license agreement.

The following License Agreement conditions govern all uses of the BVC-UNN-face dataset:

1. **Redistribution:** The BVC-UNN-face data must be used purely for research purposes and cannot be distributed in part or in whole, without approval from the BVC-UNN-face Principal Investigator. Hence, the BVC data cannot be further distributed, published, copied, or disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit within the requesting university, organization, or company.
2. **Modification and Commercial Use:** Without prior approval from the University of Nigeria, the BVC-UNN-face data, in whole or in part, may not be modified or used for commercial purposes.
3. **Images permitted in publications:** Only images of certain human subjects, specified in an accompanying "Publishable Images" file, can be used as figures in an academic or published article.
4. **Publication Requirements:** Those seeking to include renderings of more than 10 images from the BVC-UNN-face data in reports, papers, and other documents to be published or released must first obtain approval in writing from the BVC-UNN-face Principal Investigator. In no case should the face images be used in a way that could cause the original subject embarrassment or mental anguish.
5. **Citation:** The BVC-UNN-face dataset provided is linked to or based on a published conference paper. Therefore, all documents and papers that report on research that uses the BVC-face data must acknowledge the use of the database by including the appropriate citation shown in the footer of this page.
6. **Indemnification:** Researcher agrees to hold harmless the Biometrics, Vision and Computing research group and the University of Nigeria, persons and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any injury or damage (real or alleged) related to Researcher's use of the BVC-UNN-face dataset. Where applicable, Researcher agrees to pay all damages, claims, judgments or expenses resulting from the wrong use of the BVC dataset.
