

**University of Notre Dame Biometrics Database Release Agreement**  
**"ND-sunglasses" Dataset**  
**UND Principal Investigator: Dr. Kevin Bowyer**

**Introduction**

The goal of our biometrics research is to analyze the causes of differences in face recognition accuracy across demographic groups. The ND-sunglasses dataset contains images for 575 Caucasian females with 6,669 images total, and 687 Caucasian males with 8,419 images total, plus a version of each image with sunglasses added using the FaceLab app. The University of Notre Dame du Lac (henceforth, "UND") owns copyright of the collection of biometric images and serves as the source for the UND Biometrics Database.

**Release of the Database**

To advance the state-of-the-art in human recognition, the image dataset will be made available to researchers on a case-by-case basis. All requests for the ND-sunglasses dataset must be submitted in writing to the UND Principal Investigator at [cvrl@nd.edu](mailto:cvrl@nd.edu) **by the researcher's institution on behalf of the individual researcher or research unit** (henceforth the "Licensee"). To the extent permitted by law, to receive a copy of the database, the Licensee must sign this document and agree to observe the restrictions listed below. In addition to other possible remedies, failure to observe these restrictions may result in revocation of permission to use the data as well as denial of access to additional databases distributed by UND. The database will be distributed over the Internet to licensees only. There will be no charge for data made available and downloaded via the Internet.

**Consent:** Licensee agrees to the following terms and conditions:

1. **Redistribution:** Without prior approval from the UND Principal Investigator, the ND-sunglasses dataset, in whole or in part, will not be further distributed, published, copied, or disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying, or disseminating to a different facility or organizational unit of the Licensee.
2. **Modification and Commercial Use:** Without prior approval from UND, the ND-sunglasses dataset, in whole or in part, may not be modified or used for commercial purposes. The license granted herein is specifically for the internal research purposes of Licensee, and Licensee shall not duplicate or use the disclosed ND-sunglasses dataset, its contents, or any seal, logo, mark, or phrase associated with or owned by UND to manufacture, promote, or sell products or technologies (or portions thereof) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of UND.
3. **Requests for the Biometrics Database:** All requests for the ND-sunglasses dataset will be forwarded to the UND Principal Investigator at the email address at the bottom of this page.
4. **Publication Requirements:** Licensees seeking to include renderings of more than ten images from the ND-sunglasses dataset in reports, papers, and other documents to be published or released must first obtain approval in writing from the UND Principal Investigator.
5. **Publications to UND:** A copy of all reports and papers that are for public or general release that use the ND-sunglasses dataset must be forwarded immediately upon release or publication to the UND Principal Investigator.
6. **Indemnification:** Licensee agrees to indemnify, defend, and hold harmless the University of Notre Dame du Lac and its Board of Trustees, officers, employees, and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any injury or damage (real or alleged) related to, and shall pay all damages, claims, judgments or expenses resulting from, Licensee's use of the ND-sunglasses dataset.
7. All published works resulting from research or development employing this database will cite: "Impact of Sunglasses on One-to-Many Facial Identification Accuracy", Sicong Tian, Haiyu Wu, Michael C. King and Kevin W. Bowyer, 19th IEEE International Conference on Automatic Face and Gesture Recognition (FG), May 2024.

Note: **Signatory must have the legal authority to sign licensing agreements on behalf of the Licensee with UND.** Licensee's legal staff should review the terms and conditions of this agreement and execute it. Agreements signed by individuals without this authority are not valid and will be discarded.

Authorized Signatory for Licensee:
